INSPIRING - FLEXIBLE - DEPENDABLE

Case Study No. 2

Brief: The five-storey building was a mixture of flats and bedsits and was bought by my clients to return it to a family home. By removing the floor of what is usually the rear sitting room, and connecting the raised and lower ground floors with a new staircase, all 'daytime' spaces radiate off the central two-storey atrium.

Location: London, W10

Area Built, or Refurbished: Approx 250m²

Length of time on site: Approx 5 Months
